

### AI-TEK

Analog and digital tachometers, passive, active and bi-directional magnetic pickups, low speed switches, split and solid gears. (Stocked in Fort Mill, SC)

### BABBITT INTERNATIONAL, INC

Point and continuous level systems for liquids, slurries and granular. Interface, and dust monitoring.

### BLH NOBEL

High performance and high accuracy weighing and batching systems for the process industry. Web tension, Roll force and reel optimization.

### DE NORA

Chemical analyzers, controllers, gas feed and safety shutdown systems. UV disinfection. Sodium Hypo-chlorite generators.

### EATON

Strainers, single and multi-bag housings, filter bags, and filter cartridges.

### ENGINEERED SPECIALTY PRODUCTS, INC

High quality pressure and temperature gauges and accessories.

### FITOK

Tube fittings, valves, tubing, sampling systems one stop solution.

### FLOW TECHNOLOGY

Turbine flowmeters for liquid, gas, and cryogenic service. In-line, Clamp-on ultrasonic and electromagnetic flowmeters.

### FLOWLINE

Solutions in level and flow measurements for continuous indication and control. Technologies include: ultrasonic, float, pressure, vibration, buoyancy, capacitance, and thermal.

### GEORG FISCHER SIGNET

Signet measurements, controllers and valves for pH, ORP, turbidity, conductivity, resistivity... (stocked in Fort Mill, SC)

### JC WHITE

Piping and tubing products that are precision manufactured to withstand exposure to years of daily vibration, weather, and industrial activity.

### JFLOW

Offers complete solutions for all your valve needs along with expert engineering to assist in specifying the right valve for your application.

### JOGLER

Magnetic Level Gauges are a safe, economical way to measure and control level through a wide range of process pressures, temperatures, and fluids.

### KLAY-INSTRUMENTS

All stainless pressure, differential pressure and level transmitters for all industries. Submersible level and Sanitary grade pressure transmitters.

### LORD & COMPANY, INC

PLC programming, UL panel fab., SCADA documentation, upgrades/migration, design-build training, critical mgt., HMI, cloud-based monitoring.

### MOORE INDUSTRIES

Signal converters, isolators, alarm trips, temperature transmitters & Assy, SIL functional safety products, and remote I/O.

### PRECISION DIGITAL

Universal process meters, loop-powered meters and totalizers, Modbus scanners, Wireless Telemetry, Controllers, and Annunciators.

### PULSAR MEASUREMENT

Primarily non-contact flow and level measurement solutions for water, wastewater, and industrial process applications.

### SNYDER INDUSTRIES

Engineered HDLPE & XLPE tanks for industrial and municipal chemical storage.

### TRERICE

Leading supplier of pressure and temperature gauges, thermometers, regulators, control valves.

### TRICOR

Classic, pro, and specialty series high precision, repeatable and reliable Coriolis Mass Flow meters for liquid and gas applications...

### ULTRA ENERGY/WEED INSTRUMENT

Industrial/sanitary RTDs, T/Cs, thermowells and transmitters. HVAC temperature sensors, custom temperature sensors.

### UNITED PROCESS CONTROLS

Zirconium based in-situ oxygen trim sensors. Gas flow meters, gas flow controllers, combustion and gas mixing instrumentation.

### VORTEK

Manufacturers flowmeters aimed at measuring, gas, liquids, and steam in a wide range of industrial, commercial, and municipal applications.

### WILLIAMSON

Non-Contact: single, dual and multi-wavelength infrared pyrometers with fiber-optic, visual, laser aiming and operator interface option.
