

AI-TEK

Analog and digital tachometers, passive, active and bi-directional magnetic pickups, low speed switches, split and solid gears. (Stocked in Fort Mill, SC)

BABBITT INTERNATIONAL, INC

Point and continuous level systems for liquids, slurries and granular. Interface, and dust monitoring.

DE NORA

Chemical analyzers, controllers, gas feed and safety shutdown systems. UV disinfection. Sodium Hypo-chlorite generators.

ENGINEERED SPECIALTY PRODUCTS, INC

High quality pressure and temperature gauges and accessories.

FITOK

Tube fittings, valves, tubing, sampling systems one stop solution.

FLOW TECHNOLOGY

Turbine flowmeters for liquid, gas, and cryogenic service. In-line, Clamp-on ultrasonic and electromagnetic flowmeters.

FLOWLINE

Solutions in level and flow measurements for continuous indication and control. Technologies include: ultrasonic, float, pressure, vibration, buoyancy, capacitance, and thermal.

GEORG FISCHER SIGNET

Signet measurements, controllers and valves for pH, ORP, turbidity, conductivity, resistivity... (stocked in Fort Mill, SC)

HAWK

Non-contact level and flow measurements for liquid solids, and positioning with high powered acoustic wave, sonar, radar and laser.

JFLOW

Offers complete solutions for all your valve needs along with expert engineering to assist in specifying the right valve for your application.

JOGLER

Magnetic Level Gauges are a safe, economical way to measure and control level through a wide range of process pressures, temperatures, and fluids.

FLO-TITE

Flo-Tite can customize their valves to fit any applications your customers require, Ball Valves, Butterfly Valves, Severe Service Valves, Special Alloy Valves, Globe Valves, Knife Gate Valves, Actuators, Media Containment Devices, and millions in inventory.

KLAY-INSTRUMENTS

All stainless pressure, differential pressure and level transmitters for all industries. Submersible level and Sanitary grade pressure transmitters.

MOORE INDUSTRIES

Signal converters, isolators, alarm trips, temperature transmitters & Assy, SIL functional safety products, and remote I/O.

PRECISION DIGITAL

Universal process meters, loop-powered meters and totalizers, Modbus scanners, Wireless Telemetry, Controllers, and Annunciators.

PULSAR MEASUREMENT

Primarily non-contact flow and level measurement solutions for water, wastewater, and industrial process applications.

SNYDER INDUSTRIES

Engineered HDLPE & XLPE tanks for industrial and municipal chemical storage.

TRICOR

Classic, pro, and specialty series high precision, repeatable and reliable Coriolis Mass Flow meters for liquid and gas applications...

UNITED PROCESS CONTROLS

Zirconium based in-situ oxygen trim sensors. Gas flow meters, gas flow controllers, combustion and gas mixing instrumentation.

VORTEK

Manufacturers flowmeters aimed at measuring, gas, liquids, and steam in a wide range of industrial, commercial, and municipal applications.

WILLIAMSON

Non-Contact: single, dual and multi-wavelength infrared pyrometers with fiber-optic, visual, laser aiming and operator interface option.

TITAN FLOW CONTROL

Strainers are an efficient way to remove debris from industrial and commercial pipelines. By mechanically removing potentially harmful debris before it reaches expensive pumps, compressors, valves, etc., strainers are essential in preventing damage to downstream equipment. Titan Flow Control, Inc. offers a huge variety of strainer designs and options.

MAX SEAL

With over 35 years of valve industry experience Max-Seal, Inc. is becoming a global leader in the design, manufacturing, and sale of manual & automated process valves for all types of industries.

ANALYTICAL INSTRUMENTS

- DeNora*
- GF Signet

COMBUSTION OPTIMIZATION

- United Process Controls

CONTROLLERS

- GF Signet
- Moore Industries*
- Precision Digital

FITTINGS

- Fitok

FLOW CONTROLS (VOLUME/MASS)

- Flow Technology, Inc.
- GF Signet
- Hawk
- Pulsar Measurement
- Tricor
- JFlow

GAUGES

- ESP

**INTERFACE SOLUTIONS/
DIGITAL INDICATORS**

- Moore Industries*
- Precision Digital

LEVEL CONTROLS (LIQUIDS & SOLIDS)

- Babbitt International
- Flowline
- GF Signet
- Hawk
- Klay-Instruments
- Pulsar Measurement

PRESSURE

- GF Signet
- Klay-Instruments

SIGNAL CONDITIONERS

- Moore Industries*

SPEED SENSORS & TACHOMETERS

- AI-Tek Instruments*

TANKS

- Snyder Industries

**TEMPERATURE
(CONTACT/NON-CONTACT)**

- GF Signet
