James C. White Co. Inc.

Over 60 years of experience serving the nuclear power industry.

We are the trusted manufacturer of dedicated support systems for process instrumentation and have been serving the nuclear industry since the 1960's. Our TUBETRACK® and CABLE-RACE® tray systems are precision manufactured at our factory in Greenville, SC, and are in use at all operating USA nuclear power plants, as well as multiple international plants and various nuclear labs and facilities.

We are committed to creating the highest quality products available, cultivating relationships, and passionately focused on serving each customer's individual needs. Please call on us. We will get the job done.
